

Mines Of Devon: North And East Of Dartmoor

A typical granite tor on eastern Dartmoor, Devon - Haytor Rocks, with Dartmoor ponies. The very jointed granite has the typical Dartmoor megacrysts of orthoclase feldspar. This tor has a summit at 457m. and is seen here from the NW side. Haytor is easily accessible by short walks up from car parks and thus is often visited by field parties. Photo 23 March 2007. Jan West & Tonya West (c) 2007.
