

Urban Transportation Policy And Management

 United Nations Framework Convention on Climate Change

NAMA Seeking Support for Implementation

A.1 Party: Republic of Indonesia

A.2 Title of Mitigation Action: Sustainable Urban Transport Initiative

A.3 Description of mitigation action: This Programme promotes sustainable urban transport in Indonesian cities by implementing and monitoring measures in order to halt the increasing motorisation and reduce externalities of transportation. The pilot phase will start with the implementation of low-carbon mobility plans in three cities (Medan, Manado, Batam) as well as supporting activities on national level that aim at upscaling the policies of the pilot phase to more Indonesian cities. The NAMA covers the following activities:

At national level, development of a Policy Framework for Sustainable, Low-carbon Urban Transport, comprising a regulatory framework, co-financing of local measures, capacity building, practical guidelines for local planning, and overall MRV of the actions.

At the local or provincial level, development, implementation and MRV of Comprehensive Urban Low-carbon Mobility Plans. The sustainable transport policies covered include a tailor-made mix of 'push' and 'pull' measures for each city, including high quality public transport, non-motorised transport, parking management, traffic management, spatial planning, alternative fuels and vehicle efficiency.

The preparation of the NAMA is ongoing and further details will be added during the next months.

A.4 Sector: Energy supply Transport and its infrastructure
 Residential and Commercial buildings Industry
 Agriculture Forestry
 Waste management

A.5 Technology: Bioenergy Cleaner Fuels
 Energy efficiency Geothermal energy
 Hydropower Solar energy
 Wind energy Ocean energy
 Carbon Capture and Storage Other Transport policies & measures

A.6 Type of action: National / Sectoral goal
 Strategy
 National / Sectoral policy or program
 Project: Investment in machinery
 Project: Investment in infrastructure
 Other: Local Governments involvement
